Discovery Service

Features & Functionality At-A-Glance

1. **Current Search Criteria:** Quickly view your current search selections and update your search results by removing selected items.

2. **Limiters:** Refine a search without navigating away from the results page.

3. **Filters:** Filter search results by type of resource, related subjects, publisher or publication and more.

4. **Search History:** View and combine past search terms and set up alerts to be notified of new articles.

5. **Research Starters:** Available for the most popular topics, Research Starters provides quick access to an overview article and links users to related information and detailed bibliographies.

6. **Create a My EBSCOhost Account:** Create a personal account to store your favorite articles to a personal folder, and set your user preferences.

7. **Sort Results:** Sort results by relevance, date, author or source.

8. **Share:** View alerting, linking and bookmarking options from this menu.

9. **Related Images:** Preview thumbnail images from full-text articles and EBSCO's Image Collection.

10. **Preview and Add to Folder:** Click on icons to preview or add a record to your folder without leaving the results page.

11. **Updated Library Catalog Information:** When enabled by a library, updated information for locating library materials is available on the search results.

Search Library Resources
Keyword Find books, articles, journals, databases and more

Home

Single Search Box/Metasearch
Searching Theileria across all our e-resources
You can limit the search to Full text, peer review

Results from Google Scholar, EBSCO, Science Direct etc
You can create your own Library and save searches
Folder contains all saved searches
Results previewed by clicking on preview button, give brief summary of resource
You can limit by Publisher and select the specific publisher you like

Then refresh results
Folder shows results by category i.e. articles, eBooks, web pages, reports

You can save the PDF or email to yourself or directly print
This can help users to remember all their searches during research for easy referencing.
