

# Information Resource Centre

By Arnold Mwanzu

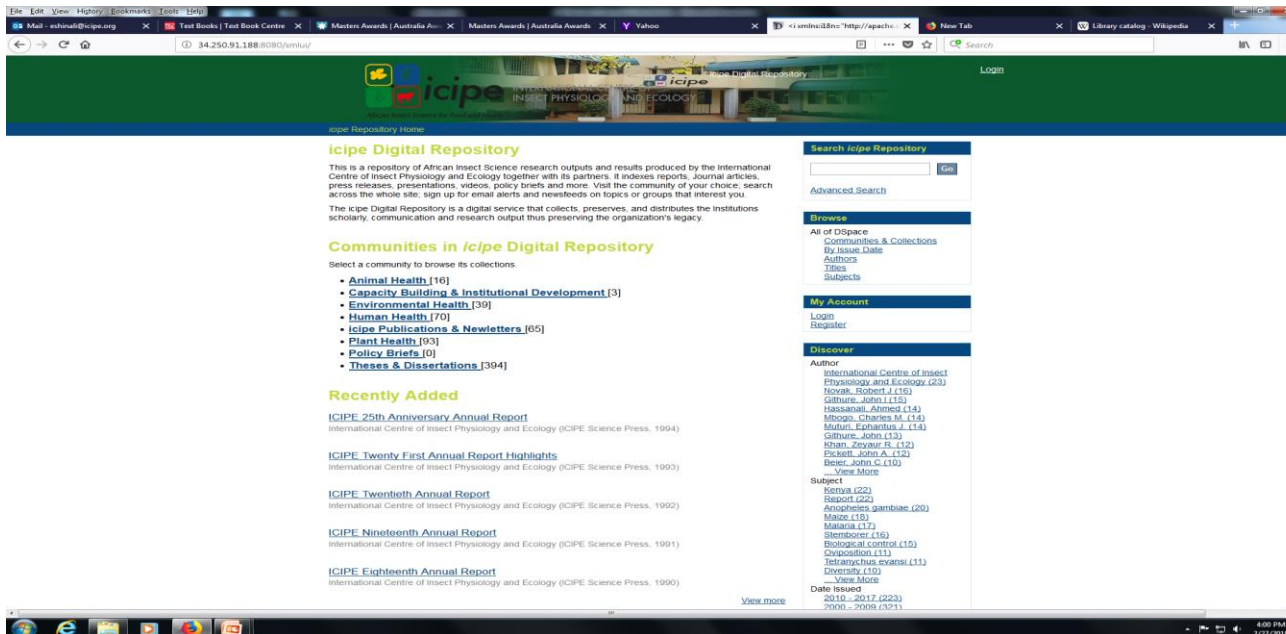

# Digital Repository

- A digital repository stores and indexes an institutions scholarly output like thesis, reports, Journal articles, press releases, presentations, and more.
- To access the [icipe thesis](#), visit the collections on the repository i.e. animal health, capacity building & institutional development, environmental health, human health, icipe publications, plant health, policy briefs and theses & dissertation.
- The ICIPE Digital Repository is a digital service that collects, preserves, and distributes the Institutions scholarly, communication and research output thus preserving the organization's legacy.

# Digital Repository

- To access, go to <http://34.250.91.188:8080/xmlui/>
- Search icipe Theses & dissertations by Author name, title or keyword
- The repository is indexed on Google and therefore google redirects searches to it
- Get all icipe thesis online
- Get institutional Publication Metrics

The screenshot shows the homepage of the icipe Digital Repository. The header features the icipe logo and navigation links. The main content area includes a search bar, a list of communities (Animal Health, Capacity Building & Institutional Development, Environmental Health, Human Health, ICipe Publications & Newsletters, Plant Health, Policy Briefs, Theses & Dissertations), and a 'Recently Added' section with links to various annual reports. A sidebar on the right contains a search bar, navigation links, and a 'Discover' section listing authors and subjects.

**icipe Digital Repository**

This is a repository of African Insect Science research outputs and results produced by the International Centre of Insect Physiology and Ecology together with its partners. It indexes reports, Journal articles, press releases, presentations, videos, policy briefs and more. Visit the community of your choice, search across the whole site, sign up for email alerts and newsletters on topics or groups that interest you.

The icipe Digital Repository is a digital service that collects, preserves, and distributes the Institutions' scholarly, communication and research output thus preserving the organization's legacy.
